

ARTICLE VII SUPPLEMENTARY REGULATIONS GOVERNING SPECIAL PERMIT USES

GENERAL STATEMENT –The purpose of this section is to regulate those uses that have some particular impact or unique characteristics which require a case-by-case review of their location design, configuration and impacts on the surrounding area. By requiring the individual review of special use permit applications, the Planning Board helps to determine the level of compatibility and desirability of a use in its proposed location. The requirements contained in this Article shall be in addition to the provisions specified elsewhere in this Ordinance.

ALTERNATIVE ENERGY SYSTEM (BATTERY ENERGY STORAGE SYSTEM, BESS) - A type of energy storage system using batteries to capture, store and distribute energy from renewable energy sources (wind, solar, biomass, geothermal, hydro, etc.) for later use in the form of electricity. This stored energy can be drawn upon when needed to meet various demands for power across different applications helping to reduce costs and establish benefits for the user.
